

Minghao Guo

PERSONAL INFORMATION

Name:  Minghao Guo (郭明浩)	Address:  Peyton Hall, Princeton University, Princeton, NJ 08544, USA
Email:  mhguo@princeton.edu	
Homepage:  mh-guo.github.io	GitHub:  mh-guo
ORCID:  orcid.org/0000-0002-3680-5420	GitLab:  mhguo

EDUCATION

Princeton University Graduate Student, Department of Astrophysical Sciences Thesis: Multiscale multiphase modeling of black hole accretion and feedback	Princeton, US 2021 – Expected 2026
Princeton University Master of Arts, Department of Astrophysical Sciences	Princeton, US 2021 – 2023
Peking University Bachelor of Science in Physics, Yuanpei College Thesis: A numerical study of scalar-tensor gravity theory	Beijing, CN 2016 – 2021

EXPERIENCE

Institute for Advanced Study Visiting Graduate Student, School of Natural Sciences	Princeton, US Dec. 2023 – Expected 2026
----------------------------------------------------------------------------------------------	--------------------------------------------

RESEARCH INTERESTS

- Black holes, high energy astrophysics, accretion disk, general relativistic magnetohydrodynamics (GRMHD)
- Active galactic nuclei (AGN), galaxy formation and evolution, multiphase interstellar medium (ISM)
- Numerical methods and simulations, GPU computing, new numerical techniques
- Neutron stars, pulsars, gravitational waves, modified gravity theory

APPROVED PROPOSALS

EuroHPC	~ 1 M GPU hours
Multi-scale (GR)MHD modelling of accretion onto supermassive black holes	Mar. 2024 – Mar. 2025
NSF ACCESS Maximize	~ 100 k GPU hours
Investigating stellar and black hole heating in massive galaxies, groups and clusters	Oct. 2024 – Sep. 2025
JWST Cycle 3	~ 6 hours
Mapping a Black Hole Accretion Flow with JWST/NIRSpec	2024 – 2025
NSF ACCESS Accelerate	~ 42 k GPU hours
Multiscale GRMHD Modeling of Accretion onto Supermassive Black Holes	Nov. 2023 – Feb. 2025
NSF ACCESS Explore	~ 10 k GPU hours
Multi-scale MHD Modeling of Accretion onto Supermassive Black Holes	Jun. 2023 – Jun. 2024

HONORS AND AWARDS

Princeton First Year Fellowship in Natural Science & Engineering	2021
Weiming Bachelor, Peking University	Jun. 2021
Yuanpei Outstanding Young Scholars	Dec 2020
Lin-bridge First Prize for Undergraduate Research	Sep. 2020
Yuanpei College First Award for Undergraduate Research	Jun. 2020
Xingcheng Award for Undergraduate Research	May 2019
National Undergraduate Research & Training Program	May 2019
Peking University Scholarship for Outstanding Freshmen	Sep. 2016

TEACHING AND MENTORING

Co-advising Princeton Undergraduate: Milo Salvucci	2025
Teaching Assistant for Cosmology	Spring 2024
Teaching Assistant for General Relativity	Fall 2023
Co-advising Princeton Undergraduate: Sajia Shahrin Neha	2023
Lecture on Flatiron Institute CCA Fluid Dynamics Summer School <i>GPU Computing using AthenaK: Black Hole Accretion and Supernova Remnants</i>	Aug. 2023
Co-organizer of the Princeton Astrophysics Thunch, Astronomy	2022 – 2023

SERVICE AND OUTREACH

Prison Teaching Initiative Teaching Astronomy	Jan. 2025 - Now
Member of the Learning the Universe Collaboration	Sep. 2022 – Now
Reviewer for the Astrophysical Journal (ApJ)	2024 – Now
Astronomy on Tap Trenton: How does a tiny black hole affect the entire galaxy?	Mar. 2025
Member of the Local Organizing Committee, Learning the Universe Collaboration meeting	Mar. 2025

TECHNICAL SKILLS

Programming: Proficient in Python, C/C++, \LaTeX , Mathematica, Git; Basic knowledge of Matlab, Fortran, and HTML/CSS.

Software and Packages: AthenaK, Athena++, MPI, OMP, cuda, SymPy, yt, emcee, VisIt, ParaView, PLUTO, IRAF, GALFIT

Techniques: Numerical simulations, massive parallel computing on supercomputer, dataset analyzing and visualization.

SOFTWARE DEVELOPMENT

- [AthenaK](#) (Developer): Block-based AMR framework with fluid, particle and numerical relativity solvers in Kokkos.
- [AthenaKit](#) (Owner): Toolkit for data analyzing and visualization with AthenaK
- [pySTGROMX](#) (Owner): Extended reduced-order surrogate models for scalar-tensor gravity of Damour and Esposito-Farèse (DEF)

TALKS & PRESENTATIONS

Flatiron Institute CCA Numerical Series (Invited talk) <i>Cyclic Zoom: Multiscale GRMHD modeling of Black Hole Accretion and Feedback</i>	New York Jun. 2025
Northwestern CIERA Theory Group Meeting (Oral talk) <i>Accretion and Feedback from Galactic to Horizon Scales</i>	Evanston, Illinois Jun. 2025
Flatiron Institute CCA Coffee Talk (Oral talk) <i>Accretion and Feedback from Galactic to Horizon Scales</i>	New York May 2025
Caltech TAPIR Astronomy Talk (Oral talk) <i>Evolution of Supernova Remnants in a Cloudy Multiphase Interstellar Medium</i>	Pasadena, CA May 2025
The Institute for Theory and Computation (ITC) luncheons (Oral talk) <i>Magnetized Accretion onto and Feedback from Supermassive Black Holes</i>	Boston, MA Apr. 2025
UMich extreme-astroph seminar (Oral talk) <i>Multi-scale GRMHD Modeling of Black Hole Accretion and Feedback over Galactic Scales</i>	Ann Arbor, Michigan Apr. 2025
The 245th Meeting of the American Astronomical Society (Oral talk) <i>Magnetized Accretion onto and Feedback from Supermassive Black Holes</i>	National Harbor, Maryland Jan. 2025
DCC Workshop: Deciphering the Cosmic Code for Galaxy Formation (Oral talk) <i>Magnetized Accretion onto and Feedback from Supermassive Black Holes</i>	Puerto Varas, Chile Dec. 2024
Harvard BHI Workshop: Bridging Scales in the Black Hole Accretion-Feedback Problem (Invited talk) <i>Multi-Scale Simulations of Galaxy-SMBH Feeding</i>	Boston, MA May 2024
UC Santa Barbara Astro Lunch (Oral talk) <i>Evolution of Supernova Remnants in a Cloudy Multiphase Interstellar Medium</i>	Santa Barbara, CA Jan. 2024
KITP Program: Turbulence in Astrophysical Environments (Oral talk) <i>Toward Horizon-scale Accretion onto Supermassive Black Holes in Elliptical Galaxies</i>	Santa Barbara, CA Jan. 2024
Black Holes on Broadway: The Next Generation of AGN Models in Galaxy Formation (Oral talk) <i>Toward Horizon-scale Accretion onto Supermassive Black Holes in Elliptical Galaxies</i>	New York Dec. 2023
Galaxy Formation in Hangzhou: Observations and Physics of AGN Feedback (Oral talk) <i>Toward Horizon-scale Accretion onto Supermassive Black Holes in Elliptical Galaxies</i>	Hangzhou, China Oct. 2023
The Second Athena++ Workshop (Oral talk) <i>Toward Horizon-scale Accretion onto Supermassive Black Holes in Elliptical Galaxies</i>	New York May 2023
Learning the Universe Annual Meeting (Oral talk) <i>Accretion of Supermassive Black Holes in Elliptical Galaxies</i>	New York Sep. 2022
The 240th Meeting of the American Astronomical Society (Poster presentation) <i>Accretion of Supermassive Black Holes in Elliptical Galaxies</i>	Pasadena, CA Jun. 2022

2020 PKU-DoA Undergraduate Astronomy Symposium (Oral talk) <i>Hunting for Wandering Massive Black Holes</i>	Beijing, China Sep. 2020
2019 PKU-DoA Undergraduate Astronomy Symposium (Oral talk) <i>A New Channel of Bulge Formation via the Destruction of Short Bars</i>	Beijing, China Sep. 2019
2019 Annual Meeting of Chinese Astronomical Society (Oral talk) <i>A New Channel of Bulge Formation via the Destruction of Short Bars</i>	Delingha, China Sep. 2019
IAU Symposium 353: Galactic Dynamics in the Era of Large Surveys (Poster) <i>The Role of Short Bar Destruction in Regulating the Co-evolution of Black Holes and Bulges</i>	Shanghai, China Jun. 2019
